

Key Vocabulary	
sight	Your eyes let you see all the things around you.
hearing	Your ears let you listen to all the things around you. Your brain is able to tell what different sounds are.
touch	Your skin gives you the sense of touch. You can tell if something is warm, cold, smooth or rough without even looking at it!
taste	Your sense of taste comes from your tongue. You can tell if something tastes bitter or sweet. You might have some tastes you like and some you don't.
smell	You smell using your nose. Your nose can tell if things smell nice or not nice.

Seasonal Changes - Summer to Autumn

Day length	The day length gets shorter meaning it gets dark earlier.
Sunlight	There is less sunlight than summer.
Weather and Temperature	It gets colder in the day as the sunlight is weaker.
Leaves on the trees	Some change colour and fall off the trees.
Animals	Some begin to store food ready for the winter.
